2) Over the past year, how many children have been served in some type of reading program? List them according to the age ranges below. Check the age category that you have identified as a priority for service in your program.

4) In the space provided, indicate the need for the number of books per category identified previously.

5) In the space provided, please indicate if your agency or school serves children with special needs (e.g. multicultural, bilingual or special needs, etc.). Also, include the number of children to be served.

6) In the space below, provide a description of the programs in which the books will be used and what outcome(s) you hope to achieve.

7) Although the goal for this project is to provide a child with a book identified by a specialized nameplate, if supplies permit, a second distribution of books will be made to organizations for on-site use in their programs. Does your facility have a library, reading area, resource room, or a place where books are or could be kept for children to read? If so, would your program be able to use additional books?

Based on the supply of books, requests will be honored according to need and on a first-come, first-served basis.

I, (name) \_\_\_\_\_, (title) \_\_\_\_\_  
agree to distribute books in accordance with the principles listed on the attachments.
