

Share A Story Kindergarten And First Grade Winners

First Place winner is Victoria Fuzak

Joey the Frog

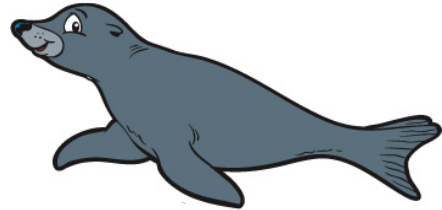

Hi-My name is Joey the Frog. I stay in the water but sometimes I come up to the top. I like to stay under water because it is fun. I come up to get oxygen so I can breathe and also when Victoria comes. I am excited because she is going to feed me and I am hungry. “Oh, oh she is coming!” Yeah, yeah she’s coming to feed me! I like when Victoria comes so that I can eat. No! No! These other kids are looking at me so she will probably not feed me! I like to float in the water. It’s fun to be in dirty water, I like it that way! I like to watch the 1st grade do work. It is fun to watch them do neat work. I wish I could be a fly on the wall. I’m scared when people look at me but I get used to it. It is so fun to be in first grade.

Second Place winner is Joseph Saccomanno

My Trip to the Zoo

Today I went to the zoo. I went with mommy and my friends. My favorite animals were the sea lions. They were my favorite because they were swimming. They were coming close to me. I wasn’t scared, I was fine! On the way back to school I wore my shades. I had a great time at the zoo!

Third Place winner is Taylor Donohue

How to Take Care of a Pet Rabbit

Rabbits make good pets, but they need a lot of care. First, you need a cage to keep your rabbit in or she’ll hop away. Next, you’ll need to get lots of carrots and some lettuce. Then, you need to buy a water tube so your rabbit can drink. Attach it to the inside of the cage. You’ll want to put clean straw on the floor of the cage for a soft bed. It is important to feed your rabbit once a day and change her water too! Once a day, take your rabbit out of its cage and let her hop around the house, but watch her or she’ll make a mess. Your mom won’t like that! Last of all, pets need lots of love so hold your rabbit and pet it everyday!
